

**Echo Conference | Roundtables | Brad Zimmerman | Church Media on a Budget**

Subscription vs. Purchase-per-need

Purchase per need seems to be more popular,

FirstCom – most expensive subscription service for music (\$1400-1500/year)

AudioJungle.net – quality not quite the same as more expensive

Envato – Good stuff

IVAudio – Good, high quality

Graceway & Igniter partners

NewLife Church – creative.newlife.tv

DSLR – Cannon, don't deal with audio very well, super cheap though

Panasonic AF100 \$5-8k

BlackMagic Cinema camera \$3-5k

Streaming in HD is stupid; no one has the bandwidth for that

Coroplast for screens

AdamFry.com

Sermon.net – sermon audio files, video available as well

Wowza - \$20/mo – more technical knowledge required

CDN Builder

Watershed.ustream.net \$50/mo

Same as ustream, but the professional service

Premiere vs. Final Cut

Cmd.tv/buyingguide

Premiere is better especially for churches
